

# HINDITRON

Better Life Through Technology...

A grayscale landscape photograph of a rocky coastline. In the foreground, there are dark, jagged rocks. The middle ground shows a calm body of water extending to the horizon. In the background, a large, rounded rock formation stands prominently on the left side, with other smaller rock formations visible further back. The sky is a uniform, light gray, suggesting an overcast day.

**Pioneers in  
High-Tech and IT  
Products & Services**

# Message From our Chairman

Advancements in Telecommunication, Information Technology and Transportation have shrunk the distance between and among the countries. The whole world has become a single market and a single resource. In the new global economic scenario, India is the single largest market along with China. With its large human resources, India has vast scope to explore and exploit the global High Technology & IT market.

Hinditron's pursuit will always be to stay at the forefront of technology; imbibing it, contributing to it and flowing with its changes. Simultaneously, remaining consistent in our commitment to our business alliance partners and customers.

In this changing scenario, we will continue to be a catalyst for - "Better Life through technology".

Hemant Sonawala  
Chairman  
Hinditron Group of Companies

# Ahead of it's Time

## High Technology & IT

Founded in 1966, Hinditron Group, over the years, expanded its operations in several fields – Information Technology, Scientific Instrumentation and Telecommunication products, IT and IT Enabled Products and Services. Hinditron provides complete solutions to its clients in Space, Aviation, Broadcasting, Defense, education, R&D and other strategic sectors.

Our success over the years is due to our uncompromising commitment to our business associates, creating an environment conducive to employee growth and sustained efforts to ensure success of our customer's missions and needs.

This has resulted in creating lasting visibility and credibility for Hinditron in the Indian and International Industrial Map. Hinditron's successful endurance with its alliance partners resulted in the formation of three independent financial & technology-based joint ventures in India – with Digital, Tektronix & Schiller, to manufacture and market the current state-of-art products.

### Hinditron's mission --

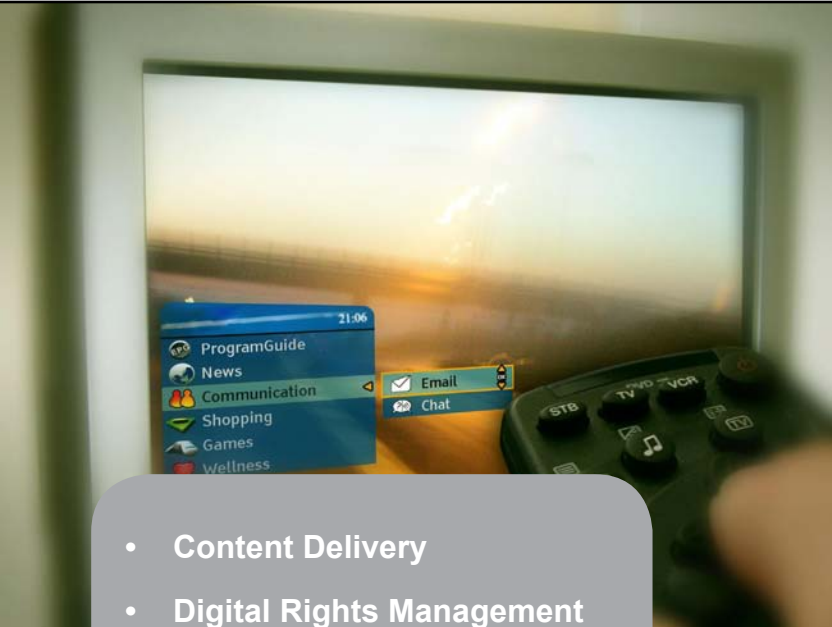

- To provide products and services that are state-of-the-art technology
- To support it's customers with solutions to help them succeed in their business endeavors
- To foster a talented work force and simulate individual growth
- To match the commitment of its international business affiliates with ethical business practices.

“ We believe in being a partner and solution provider, thereby creating values and sustaining relationships with our customers. ”

**Kamlesh Sonawala,**  
Vice Charman, Hinditron Group of Companies

# Convergence Technologies

New Technological Paradigms

- Content Delivery
- Digital Rights Management
- Digital Set-Top Boxes
- Browser Technology
- Custom Solutions

We are entering the new digital world, where telecom, IT and Media are rapidly converging. Not just the platforms, but in applications too - one can watch a movie today in a cinema which screens a digital movie, or on TV, or one's PC / Mobile. Convergence calls for new technologies, new approaches to service delivery, and new technological paradigms.

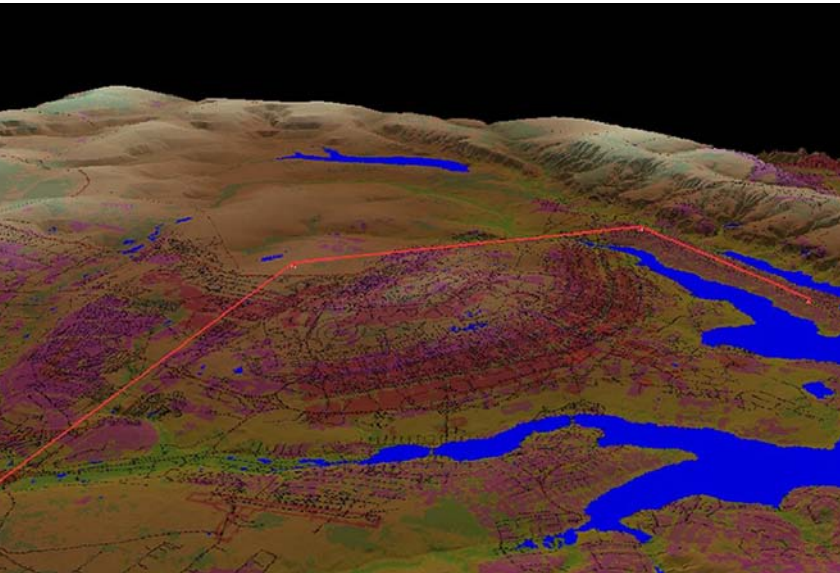

Keeping the future in mind, we provide the technology and services in the area of convergence. We believe that convergence is not just a buzzword but a practical real-world application, leading to new business opportunities TODAY!

# Science & Industry research Solutions

Focus on Providing World-class Products & Excellent Service

With the goal of providing top quality analytical instrumentation & after sales services to research organizations & industrial process control labs, we offer a range of tools for various applications – analysis of rocks & soils, metals & cement manufacturing and structural studies of nanotech materials.

During Hinditron's long years of association with its principals & their user base in India we have evolved as the most dependable productivity partner for our customers in their critical needs of elemental analysis of solids & bulk materials.

Analysis of hazardous metals in plastics, soils & herbal medicines are the critical areas of applications that we cover.

We sincerely believe that after sales customer support is the key aspect of our business success.
